Description

SKB iSeries injection molded waterproof cases are constructed of ultra high-strength polypropylene copolymer resin. Each case is waterproof and dust tight with a submersible design (IP67) that is resistant to corrosion and impact damage. Its molded-in hinge, patented "trigger release" latch system, comfortable, snap-down rubber over-molded cushion grip handle, secure stacking, and automatic ambient pressure equalization valve (MIL-STD 648C) all contribute to its military grade design. Resistant to UV, solvents, corrosion, and fungus per MIL-STD-810F.
