## SETTING/RESETTING YOUR OWN COMBINATION

Combination padlock is preset to open at 0-0-0

1. Turn the dials to the preset combination and align the numbers to the guide line.
2. Push the reset button with a pen (or other tool). Continue to hold until your desired numbers are set. (Do not let go of the button while setting the dials.)
3. Release the reset button. The lock is now set to your own combination.

Pelican's TSA-accepted padlock provides a combination lock for the owner and allows access to TSA\* personnel via a separate TSA coded keyhole.

\* TSA is an American Homeland Security Agency active in airports throughout the U.S. only.
