Description

The Mighty GigRig® Rolling Rack System features a deep design (14U+) which allows for deeper analog and digital mixers (Yamaha 01V96, Allen & Heath Mix Wizard, Mackie Onyx, etc.). The deep design allows for rack gear to be mounted on the 6U front rack rails and additional rack gear mounted on optional 6U rear rack rails for a total of 12 rack units on the bottom.

The cover is designed to be used as a stand for the GigRig and places the mixer at proper mixing height when it is open and in use or the cover can be removed for a lower workstation making the new Mighty GigRig® versatile for audio and AV applications. The cover will fit over installed XLR cable connectors (top or rear mounted).

The Mighty GigRigR comes with locking casters. An optional wheel set for Marching Band/School applications is also available.

Features

- Accommodates deep mixers
- Indestructible injection molded side handles
- Locking twist latches
- Includes wheel set with locking casters
