Description

These Mil-Standard cases were designed to meet the most demanding military specifications. They are roto-molded for strength and durability, airtight and water proof with solid stainless steel latches and hinges that will withstand the most demanding shipping conditions.

The 3R Mil-Std. Cases are molded of (LLDPE) polyethylene impact resistant / UV stabilized material and meet or exceed MIL-STD 810 and MIL-C-4150J specifications.

The shipping cases are all available with an empty interior while some models are available with: cubed foam, layered foam, padded dividers, and a pull handle with wheels. Most models without a built-in pull handle or tow handle accommodate a field installable caster kit which is sold separately.

Features

- Superior rotationally molded strength and ergonomic design
- Impenetrable, yet lightweight LLDPE shell for maximum impact resistance
- UV, solvent, corrosion and fungus resistant (MIL-STD-810F)
- Complete gasket seal makes these cases absolutely watertight (MIL-C-4150J)
- Automatic ambient pressure equalization valve (MIL-STD-648C & IP67)
- Black powder coated stainless steel hardware prevents rusting
- Comfortable, spring-loaded, rubber over-molded handles
- These cases are designed and built to withstand levels of punishment in excess of all ATA and most industrial and military shipping specifications
